Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner asked for the female parent of the plant and a comparison between the instant plant and the female parent. The name of the female plant was provided to examiner and was entered on the case as an examiner amendment. Concerning the comparison between the instant plant and the female parent the applicant's answer is the following: this crossing of the plant was performed under the guidance of Mr Rob Noodelijk. After his departure, we could only track back in our records the female parent. But those parents are no longer available at CBA, since our present breeders work with a different set of parents in their programs..
